situation: The construction of a racecourse club room and function space demanding a high performance acoustic ceiling required throughout. **solution:** An ordinary racecourse club room with extraordinary acoustic performance. Sporting large open spaces encased in glass and the potential for a loud animated atmosphere, Atkar presented the architect with a number of options for the internal ceiling to induce stability and clarity. VoglFuge was the ultimate product choice due to its classy seamless design, economical pricing and of course premium acoustic performance. Atkar provided onsite technical support and installation training, delivering confidence in a successful and very effective finished result.
